ANTON MOUNTAIN VIEW APPROVED BY CITY COUNCIL

RENDERING OF ANTON MOUNTAIN VIEW

SEPTEMBER 21, 2016 – FOSTER CITY, CA – Multifamily developer Anton DevCo announced today the Mountain View City Council has formally approved a new residential community located at 394 Ortega Avenue. The approval came at the September 20 meeting of the Council with a unanimous vote in favor of the development.

Standing four stories high, Anton Mountain View will offer contemporary living in a boutique residence setting. Apartment homes will feature modern design with European style cabinetry, plank flooring, quartz cooktops, and natural gas cooking. 4,000 square feet of amenities include fitness center, pet spa, bike repair shop, clubhouse and sky deck. Expansive outdoor features include pool and spa, dog park and a unique lawn game lounge. A secure underground garage will provide bicycle and resident parking along with optional electric vehicle charging stations.

The development will feature a total of 144 units – a combination of studio, one, and two-bedroom floor plans. “Apartment growth in Mountain View and all of Silicon Valley hasn’t kept pace with population and job growth,” says Anton DevCo Sr. Vice President Andrew Baker. “With job growth that’s among the strongest in the nation, we felt this was an amazing opportunity to develop apartment homes near major employers within the San Antonio Precise Plan.” Construction is scheduled to begin the first quarter of 2017.
